Milestone 3

Before questions:
1. Would you use a service that lets you play your own music in restaurants and add songs to the que?
2. How do you listen to music?
3. Do you like being the dj at social events
4. Does your preferred music platform lack any features?

show the wire frame

Some questions to ask:
1. Do not pay attention to styling, only content. Does this make sense?
2. What is this website for
3. What does this website want you to do?

show the mockups online
1. How can I make this more visually appealing?

_____

- Kendall
  - I wouldn't but I know a lot of people in my age group I just don't really care about music
  - Spotify
  - No
  - When it gives recommended songs, it doesn't refresh them out just gives the same ones

  - Do you have to search for all those things when searching for a playlist?
  - You should be able to select them individually not like Pandora
  - Creating collaborate I've playlists
  - How do you collaborate with other people but like where?

  - The make a playlist and join a plying are dated, small, and out of place
  - Change the yellow font. I like the color not the font.
  - Too close to the girl
  - Fix we jam clipping
  - Log in needs to be more of a button
  - Make search and join consistent

- Mohamed
  - YouTube
  - I make playlists on YouTube
  - I play music for my friends most of the time
  - YouTube has all the features I want

  - The wireframe makes sense

  - I like the webpage

- Janet
  - apple music sound cloud YouTube
  - apple music lacks newer music
  - sound cloud has music anyone can put on
  - tidal has bad graphics that why I use both sometimes

- o   the wireframe makes sense

- o   put artists in the webpage. Show different artists that are popular

- Andrew
  - o   Spotify and sound cloud sometime
  - o   I don't like the ads and I like downloading the music
  - o   Sound cloud gets brand new music

  - o   Add tags for the playlists and songs
  - o   Add ques

  - o   Curated playlists
  - o   Small artists

- Brian
  - o   Spotify and sound cloud
  - o   I like to download songs

  - o   I like the wireframe

  - o   The words next to the girl need to be fixed

- Eric
  - o   Apple music
  - o   The radio can be better and more current on apple music

  - o   Yeah, the wireframe looks really good

  - o   The grey can be more colorful and the font is ugly

- Shiraz
  - o   Sound cloud and Spotify
  - o   I haven't thought about the features
  - o   I wish sound cloud was more organized and you could search for rap

  - o   The wireframe definitely makes sense for music

  - o   I like the homepage but I wish it was more colorful right on the top then when you go down its cool

- Antonio
  - o   Spotify sound cloud
  - o   I wish would discover weekly was more frequent like you could always refresh it

  - o   Yeah it makes sense

  - o   It's awesome

- Russ
  - o   Spotify sound cloud
  - o   I wish Spotify had by genre

  - o   Cool it makes sense

  - o   No suggestions I wish I could do that

- Grace
  - o   Sound cloud and apple music
  - o   I like all the features

- o Soundcard go is bad because you can only hear previews of certain songs

- o wireframe is good

- o make the website more colorful and fix the formatting next to the girl
- Gabby
  - o Apple music
  - o Likes all the features

  - o wireframe is good

  - o different font

- Bryte
  - o Spotify
  - o Likes all the features

  - o good wireframe

  - o make the website less boring
  - o make the log in look like a button

Action Items
- change grey to dark grey or yellow
- change the font
- fix the formatting
- bring the buttons up
- change the log in to look like a button
- somehow make the site less boring
- fix clipping of logo
- display more artists
- add ques and tags
- try to implement a feature like Spotify weekly, but that is constantly refreshing. Like a personalized radio.
